Michigan State University  
Computer Science & Engineering  
Teaching Line Position

The Department of Computer Science and Engineering at Michigan State University invites applications for a teaching position, classified as a "Specialist" (non-tenure track), for CSE 101, an introductory computing foundations service course at MSU. The successful candidate will join a motivated team with a track record in innovative course development, delivery and assessment. Those interested in teaching methods and pedagogy are especially encouraged to apply. The appointment will be a fixed term, 100% time for a one-year period, with renewal each year according to performance and budget. This is a nine-month (academic) appointment and salary is dependent on educational background and experience. Additional opportunity exists for summer salary compensation.

Responsibilities for this position include, with a co-instructor, course leadership and management, ongoing curriculum development and delivery, and teaching of CSE 101. In each regular semester, there are approximately 1,500 students from all majors across the university enrolled in the course. The position also requires management, training and supervision of graduate teaching assistants who lead the majority of course sections and undergraduate teaching assistants who assist with course delivery and coordinating laboratory sections. This position is largely course management and teaching, with limited or no research content. Applicants for the position must have an advanced degree in Computer Science or related area with substantial teaching or industrial experience. Experience with management of teams is desirable. Because the course serves students in all colleges and majors, a demonstrated ability to work effectively with and communicate with different functional units is also desirable.

For additional information regarding CSE 101 see the course pages for CSE 101 at [http://cse101.cse.msu.edu/](http://cse101.cse.msu.edu/).

Michigan State University enjoys a park-like campus of 2,100 developed acres and 3,100 acres of outlying research facilities and natural areas. The campus is adjacent to the cities of East Lansing and the capital city, Lansing. The Greater Lansing area has approximately 250,000 residents. The communities have excellent school systems and place a high value on education.

Applicants should send a letter of intent, resume, the names of three references, and a statement of teaching interests through [http://jobs.msu.edu](http://jobs.msu.edu) and refer to posting 3494. Applications will be reviewed on a continuing basis until the positions are filled. Review of applications will begin on July 1, 2016. For questions about these positions, contact the search committee chair at search@cse.msu.edu.
