Lab Exercise #2 -- Working in a Linux Environment

This exercise familiarizes you with the computing environment that will be used for this course (the server named "cse410" and the Linux operating system).

A. The "man" Utility

Open a web browser and review the following information:

http://www.linfo.org/man.html

That information discusses the "man" utility.

B. CSH Tutorial

Open a web browser and review the following tutorial:

http://www.cse.msu.edu/~cse410/Tutorials/CSH/

The tutorial contains exercises related to the C shell command interpreter.
