Jacob Rieck

Department of Computer Science and Engineering
Michigan State University
Spring 2019
Project Overview

• Develop a web application for analysts to input context sensitive numerical ratings and prose notes
• Support intelligent distribution of the notes and ratings, and maintain both current and historical data
• Leverage cloud computing (Amazon Web Services)
System Architecture

What’s left to do?

• Create PGE notes and ratings template
• Perfecting web application frontend
• Implement attachment functionality
• Create a quick save functionality
• Copy functionality
• JavaScript improvements
