Abstract
This is an abstract for this paper that will describe the impact of one of David Parnas’ papers.

1 Overview of Program Families
This section gives an overview of the paper “On the design and development of program families” [1] written by David L. Parnas.

2 First Related Paper
This section describes a project that extends Parnas’ work [1] on Program Families.

3 Second Related Paper
This section describes another project that extends Parnas’ work [1] on Program Families.

4 Third Related Paper
This section describes and yet another project that extends Parnas’ work [1] on Program Families.

5 Indirectly Related Paper
This section describes a project that extends Parnas’ work [1] on Program Families, but it does not cite his original work.
