

1. Name and email address.
2. What is your major (e.g., CSE, ECE, other)?
3. What is your undergraduate degree? (What university?)
4. What year are you and how many credits (approximately) have you earned thus far? (Are you a MS or PhD or other student?)
5. What is your GPA?
6. What classes are you taking this semester? (indicate which ones are project courses)
7. What Software Engineering topics are you interested in studying in addition to those listed in the course overview?
8. Are you currently working on a research project? If so, briefly describe the project and indicate your advisor.
9. Have you taken an undergraduate software engineering course? Did it include a sizeable project? Group work? Briefly describe the project, including the application domain and modeling/programming language(s) used.
10. Have you ever worked in a group of two or more on a software project? If so, briefly describe the scope of the project. (Do you work better in a group or alone?)
11. Have you ever written a technical paper of length at least 25 pages?
12. Do you have industry experience (e.g., co-op, internships, full-time position)? If so, where and what did you do?
13. What do you want to gain from this course?
14. What are your tentative plans after graduation?
