

## 2020 INTERNATIONAL JOINT CONFERENCE ON BIOMETRICS (IJCB): REVISED CALL FOR PROPOSALS

(DEADLINE: JANUARY 15, 2019)

The IAPR Technical Committee on Biometrics (TC-4) and the IEEE Biometrics Council (IEEE-BC) are pleased to invite proposals for hosting the **2020 International Joint Conference on Biometrics (IJCB 2020)** in the **United States**.

Proposals are due by **JANUARY 15, 2019**. A committee established by IAPR TC-4 and IEEE-BC will evaluate all proposals by **FEBRUARY 15, 2019**.

The International Joint Conference on Biometrics combines two major biometrics annual research conferences - International Conference on Biometrics (ICB) and Biometrics Theory, Application and Systems (BTAS) conference - and is held in the United States. The blending of these two conferences will present an exciting event for the worldwide biometrics research community. Similar events were conducted in 2011 ([http://www.cse.nd.edu/IJCB\\_11/](http://www.cse.nd.edu/IJCB_11/)), 2014 (<http://ijcb2014.org/>) and 2017 (<http://www.ijcb2017.org/ijcb2017/index.php>), and proved to be a success as evidenced by the number of paper submissions and delegates in attendance.

Each proposal should include information on (but not limited to):

- Host organization;
- Organizing and technical committees;
- Venue and dates (verify possible conflict with other major conferences in closely related fields);
- Accommodation arrangements;
- Paper review plan;
- Publicity plan;
- Timetable with critical milestones;
- Budget estimates;
- Sponsors.

Further guidelines on IAPR and IEEE conference organization can be found here:
